## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 – 11 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claim 10, the prior art of record, in single or in combination, fails to disclose explicitly the limitations of means for transmitting a message to adjacent routers to inform said adjacent routers that a process relating to routing of said router is temporarily halted when said process relating to routing including a transmission of said information on a route of said router and routing processing of a received packet are temporarily halted; and, means for temporarily halting a process report a change in information on a route involving a particular adjacent router to adjacent router other than said particular adjacent router when said message is received from said particular adjacent router even if information on a route has not been received from said particular adjacent router at least a predetermined period of time.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
